

EVERY SECOND COUNTS. PLAN. PREPARE. PROTECT.

A home fire can become life-threatening in less than 3 minutes. Working smoke alarms, a plan, and practice can give your family the time you need to get out safely.

SEVEN STEPS TO A SAFER HOME

1 INSTALL SMOKE ALARMS

- ✓ Install smoke alarms on every level and inside each bedroom.
- ✓ Test monthly and replace batteries at least once a year.

2 CREATE AN ESCAPE PLAN

- ✓ Draw a floor plan of your home. Identify two ways out of each room.
- ✓ Choose a safe meeting place outside your home.

3 PRACTICE YOUR PLAN

- ✓ Practice your escape plan at least twice a year.
- ✓ Make sure everyone in your home knows what to do.

4 COOK WITH CARE

- ✓ Stay in the kitchen when cooking
- ✓ Keep anything that can burn away from the stovetop.

5 CHECK ELECTRICAL SAFETY

- ✓ Don't overload outlets or extension cords.
- ✓ Have damaged cords or outlets repaired by a professional

6 USE HEAT SOURCES SAFELY

- ✓ Keep space heaters 3 feet away from anything that can burn.
- ✓ Turn heaters off when leaving the room or sleeping

7 KEEP IT OUTDOORS

- ✓ Use grills, smokers, and fire pits outdoors only.
- ✓ Keep flammable materials away

FIRE EXTINGUISHER BASICS

Keep a multi-purpose fire extinguisher on each level of your home and in the kitchen.

Remember the PASS method:

- P** PULL the pin
- A** AIM at the base of the fire
- S** SQUEEZE the handle
- S** SWEEP from side to side

KEEP THESE NUMBERS HANDY

Emergency: 911

Fire Department (Non-Emergency): _____

Poison Control: 1-800-222-1222

Local Contact: _____

IMPORTANT REMINDER

Close doors behind you as you leave a room.
It can slow the spread of smoke, heat, and fire.

HOME FIRE SAFETY

PROTECT YOUR FAMILY & HOME

SIMPLE STEPS TODAY
CAN SAVE LIVES TOMORROW.

BE PREPARED

BE ALERT

GET OUT

STAY SAFE

THE FLAME GROUP®

PREVENTION IS INTENTION

KNOW THE RISKS. PREVENT THE FIRE.

Most home fires are preventable. A few minutes of prevention can protect your family, your home, and everything that matters most.

COMMON CAUSES OF HOME FIRES

COOKING

Unattended cooking is the leading cause of home fires.

ELECTRICAL

Faulty wiring, overloaded outlets, and damaged cords can spark a fire.

HEATING

Space heaters, fireplaces, and central heating equipment can pose a risk.

OPEN FLAMES

Candles, lighters, and matches can ignite materials.

SMOKING

Careless smoking is a leading cause of deadly home fires.

Cooking Accidents • Heating Equipment • Electrical Issues • Smoking Indoors

SAFETY TIP

Small habits today can prevent tragedies tomorrow. Be alert. Be prepared. Be safe.

CREATE & PRACTICE YOUR ESCAPE PLAN

DRAW A FLOOR PLAN

Draw a simple map of your home. Mark all doors, windows, and two ways out of each room.

CHOOSE A MEETING PLACE

Pick a safe meeting place outside, like a mailbox or tree.

PRACTICE TOGETHER

Practice your escape plan at least twice a year, day and night. Make sure everyone knows what to do.

EXAMPLE ESCAPE PLAN

IMPORTANT!

If the smoke alarm sounds, get out and stay out. Never go back inside for people, pets, or things. Call 911 from a safe location.

PLAN AHEAD.
PRACTICE TOGETHER.
BE PREPARED.

CHECK YOUR HOME SAFETY ESSENTIALS

SMOKE ALARMS

- ✓ Install on every level and in each bedroom.
- ✓ Test monthly.
- ✓ Replace batteries at least once a year.
- ✓ Replace alarms every 10 years

CARBON MONOXIDE ALARMS

- ✓ Install near sleeping areas.
- ✓ Test monthly.
- ✓ Replace according to the manufacturer's instructions.

FIRE EXTINGUISHER

- ✓ Keep one on every level, especially in the kitchen and garage.
- ✓ Know how to use it.
- ✓ Check regularly.

HOME MAINTENANCE

- ✓ Clean dryer vents and remove lint.
- ✓ Keep flammable items away from heat sources.
- ✓ Store gasoline and chemicals properly.

ELECTRICAL SAFETY

- ✓ Don't overload outlets.
- ✓ Use extension cords temporarily, not as permanent wiring.
- ✓ Replace damaged cords.
